

WordPress has the ability to install themes which allow you to change the look and feel of the WordPress website. These are easy to install and allow you to customize your site very easily. This is a list of the Top 20 WordPress theme sites that offer free themes you can download and install.

To install a theme in WordPress 2.8 login to the Dashboard and select the Appearance menu option. Select Install Theme and upload the theme to your website. Also, you can search for themes on the Internet in the search window and install them from inside WordPress.
